

By helping grooms focus on three core components of their engagement plan: the design, the organization and finally the orchestration, we can help layout the logistics, incorporate all the special details that make your love story unique and shroud it in secrecy for that ultimate romantic surprise reveal.

Step One | INITIAL CONSULTATION

We start off by having an information gathering stage which helps us get to know your future wife, her style, her personality, your love story and what kind of marriage proposal story (MPS) you have in mind. It helps us get a better understanding of why you love her, and an appreciation of what makes your relationship truly unique.

We will use this information as a guide. We will help author a MPS that is personalized just for the two of you.

Step Two | CONCEPTUALIZATION OF THE MPS

Based on the information you have shared during the initial consultation, we will present you with a custom MPS. Together we will review and edit the final details so that you can confidently feel that this is ultimately the story you want set in motion.

Step Three | COLLABORATION OF THE CREATIVE DREAM TEAM

No legendary MPS can be brought to life without an extraordinary creative dream team. With script in hand, it is now time to hand pick the vendors. We will consult and facilitate everyone's level of involvement to your specifications. Beginning with the diamond engagement ring, to the flowers, musicians, transportation, locale or venue, etc. Nothing will be left to chance. Step Four | THE MARRIAGE PROPOSAL

Now that steps one through three are complete, it's time to execute the story. Our team will be there behind the scenes and waiting in the wings to make sure that your MPS will be seamless. Let us sweat over the details and run interference as needed. The only thing we want you to think about is how you will be on bended knee when you ask "Will you marry me?"

We know that purchasing a diamond engagement ring is a once in a lifetime investment. With so many options to choose from, it's really difficult to know what to really buy. We now offer an exclusive service to grooms who need a little help and want to purchase something that is below current retail prices. Here's how the Diamond Ambassador program works:

Step One | FAMILIARIZE YOURSELF WITH THE BASICS

On our blog www.AsianFusionWeddings.com; we ran a series about diamonds. This will probably help get your feet wet before you do some further research about each element of the 4C's in more detailed manner.

Step Two | HAVE A LOOK AROUND

Once you understand the 4C's, it's time to go have a close-up look at some diamonds so that you can get a better sense of what those 4C's terminology really means. Looking at engagement rings in the finer jewellery boutiques is a great next step.

Reading about something is entirely different than seeing it to life. You will get a better appreciation of which attributes (cut, clarity, colour and carat) of a diamond are most important to you while balancing out what the financial direction might be. There's never really a right or wrong way of selecting a diamond. It's more important that you have made an informed decision.

Step Three | FIND THE SETTING

The diamond itself is usually the most expensive part of the ring. The setting is secondary. You will need to determine if you want platinum, white or yellow gold. You will need to decide if you want a classic traditional setting, something vintage or go for contemporary styling. If you are not sure what ring size you need - that's ok. Most settings can be resized after she has tried it on.

Step Four | CONTACT US

Now that you have a better appreciation of what you want to purchase, let us know what you are looking for in terms of cut, colour, clarity and carat. If you have a picture of your preferred setting, please forward it along as well. We will then consult our diamond suppliers to find what you have envisioned. If what we find sparks your interest, we'll set up an appointment with the diamond supplier. It's that sweet and simple.
